

**We're excited to announce our partnership with Enhancia at Kickstarter campaign 2018!**

Enhancia is a growing french start-up fueled by a common passion of music. The company develops a connected ring Neova which allows musicians control any sound effects through natural hand gestures. Driven by the same vision, our teams have started collaborating to bring together unparalleled products that offer both expressive sound and control.

**Exclusively for the Kickstarter, you'll be able to order SWAM Cello or SWAM Saxophones and Neova MIDI ring controller with a 25% discount!**

**SWAM Cello Bundle:**

**Neova + Plume + SWAM Cello = 329€**

**ORDER NOW**

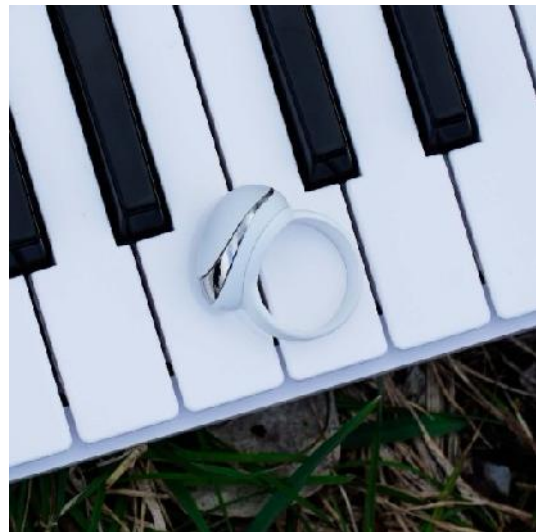

## SWAM Cello

One of the most expressive and realistic cello on the market. It is made using SWAM-S, a powerful Physical Modeling technology derived from the Digital Waveguides approach.

## Designed by Musicians for Musicians

Neova identifies natural hand gestures and interprets each subtlety into musical expression. This results in a brand-new way to enhance musical performance. The Limitation is only your imagination!

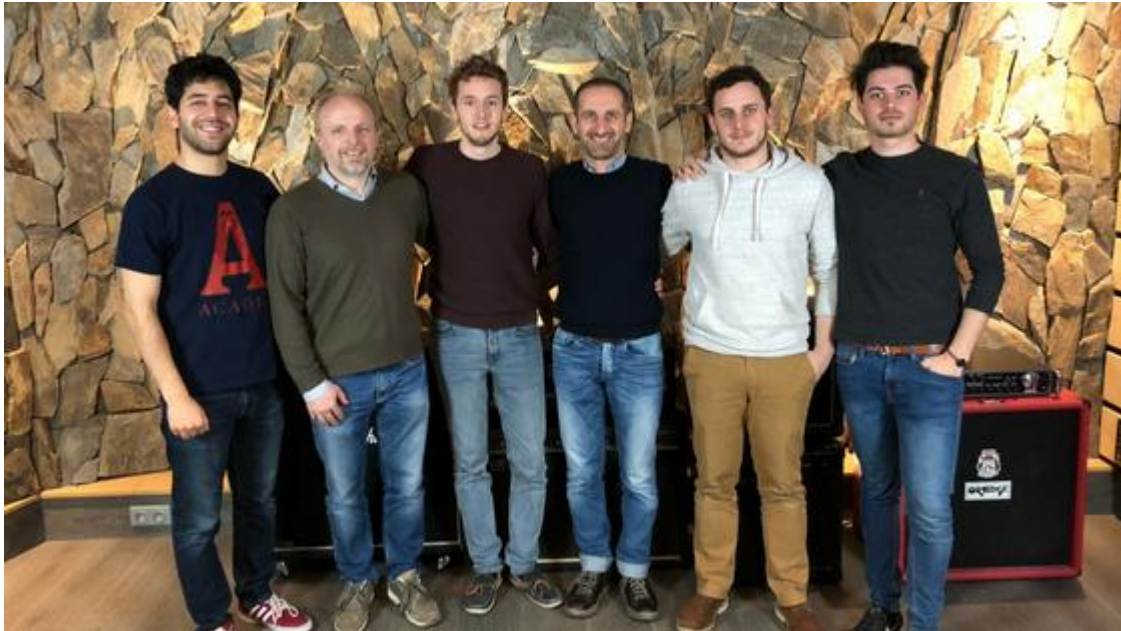

## Neova + Plume

The ring comes with a hub, a software and sound generation called Plume.

It syncs to any DAW and compatible with any software synthesizers and midi controllers.

**ORDER NOW**

**Neova and SWAM instruments are a perfect match.  
The expression you can get out of this combination is truly amazing!**
